Profile:

We work hard, but we also have a lot of fun. We have a wide range of careers available, but we expect all our staff to be deeply passionate about digital marketing. If you are interested in a career in digital, any employer would want to have seen evidence of this passion outside of work, either through a personal blog/website or social account, or charity work managing digital channels for non-profit organisations. There are lots of free training courses online, such as Google Digital Garage, so evidence of having completed these would also help.
