

TECHNOLOGY ON POINT

CAE Technology Services is an IT infrastructure solutions provider.

Our role is to enable the adoption of relevant technology.

We believe that successful adoption is a combination of technology, process and people.

It is our Approach, People and Outcomes that differentiate us.

This is Technology on Point

Profile:

My name is Leanne and I went to 6th form college following completion of my GCSE's and University following completion of A Levels. I would critique myself to say I under achieved in my studies because I didn't enjoy it, but the message here is that anything is achievable if you work hard and put your mind to something.

In my opinion, it's a bonus to know what you want to do as a career. I recommend being agile as sometimes your path will change and that's ok. However, if you are unsure about what you want to do, focus on what you enjoy and use work experience programmes as an opportunity to explore.
