

Profile:

My name is Brady and I work for GSK as a Clinical Trials Apprentice. My apprenticeship is 5 years long and covers five different business areas within the UK Clinical Operations unit. In addition to working, I study biological sciences (BSc) at the University of Kent. If you would like to learn more about my specific experiences as an apprentice or the different apprenticeship and postgraduate schemes GSK offers, please contact me!

At GSK we offer a wide variety of apprenticeship, graduate and work experience programmes. We're 100% open to all talent – whatever your gender, marital status, religion, age, colour, race, sexual orientation, nationality or disability. We want to recruit the right people for GSK from the widest possible backgrounds, so we can better serve the diversity of our patients and consumers. And also because it's the right thing to go.

Apprenticeship Schemes & Work Experience Opportunities:

Apprenticeships

If you're looking for an alternative route to college or university, our apprenticeship programmes have been designed for you! We developed our apprenticeship programme to create an alternative career route and ensure that we provide opportunities for as many people as possible. As you'd expect, there are minimum entry requirements in order for you to apply and these vary by programme. You'll choose the area of our business to start your apprenticeship in, depending on where your strengths and interests lie. Whichever part of the business you join, you'll get hands-on experience, and you'll play a role in helping us to achieve our goals. To find out more about apprenticeships, go to: <https://uk.gsk.com/en-gb/careers/apprenticeships> Please see the list below for the apprenticeships we offer:

Advanced & Higher Apprenticeships:

- Engineering
- Finance (Accounting)
- Finance Data Analyst
- Laboratory Science
- Laboratory Science (Histology)
- Manufacturing
- Pharmaceutical Technical
- Data Analytics (Consumer Healthcare)

Degree Apprenticeships:

- Business and Supply Chain
- Chemical Engineering
- Data Scientist

Industrial Placement Opportunities

Explore our different industrial placements below to discover how each one offers you the chance to develop your skills and network, while making a valuable impact. We are pleased to say that we have over 300 roles on offer, and you can apply for more than one placement with us! Our industrial placements usually run for 12 months (between 2nd-3rd years of university) which provides plenty of time for you to gain great experience, while complementing your studies and supporting your personal and professional growth. To find out more about industrial placement opportunities, go to: <https://uk.gsk.com/en-gb/careers/undergraduates/industrial-placements/>
