

ZABLUDOWICZ COLLECTION

Zabludowicz Collection is founded on a commitment to producing a vibrant and sustainable ecology for art. It achieves this through a growing archive of contemporary art and is dedicated to the conservation and production of new work by artists from the earliest stages of their careers. The Collection runs an independent UK charity and an international programme of exhibitions, events, residencies and commissions across in the UK, USA and Finland. Our exhibitions are free and open to all.

Our London Space:

Profile:

Inaugurated in 2007, Zabludowicz Collection's London project space presents a varied programme of self-initiated group and solo exhibitions, commissions and residencies, drawing on works from the collection or new works by artists linked to the collection. The programme features initiatives supporting emerging artists and curators including the Invites series, which offers emerging artists without UK commercial gallery representation the opportunity to produce a solo exhibition and event, and Testing Ground, an annual season exploring art and education working with London's premier universities.
