

PARMITER'S SCHOOL

FOUNDED 1681

Headmaster: Mr M Jones BA MEd

June 2019

Dear Parent/Carer

Evening Lecture on The Brain for Parents and Staff of Parmiter's Wednesday 19th June at 7.00pm in the Conference Centre

In order to compliment the A-Level Biology and Psychology courses at Parmiter's, we have arranged for Dr Guy Sutton of Nottingham University to host an interactive study day for A-Level students on the topic of the brain.

Dr Sutton has kindly offered, as he did last year, to present some of his findings and knowledge to parents and staff of Parmiter's in an evening lecture.

In his professional capacity, Dr Sutton works with medical students at various universities and closely with the police and legal professionals to advise and to educate. He is, in his words, a 'brain enthusiast' and always gives exciting and interesting presentations.

The evening lecture will last about an hour and will be on the topic of 'The present and future of the brain'. It will be open to staff, parents and students of Parmiter's who would be interested in this topic. The content would be most suitable for Year 10 students and older.

Dr Sutton is offering the lecture free of charge, but we do need to know numbers so we can arrange appropriate seating.

If you would like to attend this lecture, please let Mrs Renton know how many seats you will require by e-mailing s.renton@parmiters.herts.sch.uk by **Friday 14th June**.

Yours sincerely

Mrs S Renton

Head of Psychology and Sociology
