Dear Parent/Carer

**Updated Information: A Level Physics Residential Visit to CERN Geneva, Switzerland**

Thank you for making the deposit payment and completing the medical form for the A Level Physics residential visit to CERN. We write to update you on a couple of points which have come to light when confirming details with the travel company.

Firstly, in order to maintain the flight costs, we have amended the itinerary and the flight time is now considerably earlier. Students will now need to be dropped off on **Friday 4 July at 4.45am**. Apologies for the early start, but it does mean we will have nearly a full extra day in Geneva and a tour of the UN Palais de Nations will be booked for that afternoon. No extra cost will be incurred, as we had budgeted for this activity and we will now have plenty of time for the evening meal at the hostel so the food contingency will cover lunch in Geneva.

Secondly, during the back and forth over flights and quotes, the cost of overhead as opposed to under seat luggage was missed. We apologise for this oversight, but it does mean that the final instalment will increase by approximately £45. The exact amount will be confirmed in due course.

Thank you for your understanding and we look forward to taking our students on this trip.

Kind regards

Alistair Lavin  
Head of Physics
